CORE SKILLS

Custom Liquid & Theme Dev

Bespoke themes from scratch, Online Store 2.0 sections & blocks, JSON templates, metafields.

Front-End Engineering

JavaScript, CSS & HTML — pixel-exact replication of any design or interaction.

Custom Functionality

Payment methods, automations, integrations & bespoke cart / checkout behaviour.

Conversion / CRO

Upsells, frequently-bought-together, cart drawer, swatches, sticky add-to-cart.

Performance & SEO

Fast, lazy-loaded storefronts, clean markup, structured data, Core Web Vitals.

Localisation

Arabic (RTL) & English, locale files, multi-market & currency setup.

- Liquid
- OS 2.0
- JavaScript
- CSS
- GemPages
- Metafields
- REST/API
- WordPress

CERTIFICATION

Meta Front-End Developer

Professional Certificate · 9 courses · Coursera

CS Graduate

Computer Science

PROFILE

Shopify developer who builds custom, conversion-focused storefronts for e-commerce brands worldwide. I lean far more into **code** than drag-and-drop — hand me any design and I replicate it **pixel-exact**, then build whatever the brand needs on top: custom payment methods, automations, integrations and bespoke functionality. The custom engineering is what earns the word "expert" — and why international clients pay above a typical Shopify developer's rate.

Most "Shopify experts" drag a homepage and a product page into a template. I write the code — so if it can be built, I build it.

Typical Shopify dev

- ✗ Homepage + product page in a template
- ✗ Limited to what the theme allows
- ✗ "That can't be done on Shopify"

How I work

- ✓ Custom Liquid, JS & CSS — real code
- ✓ Any design replicated exactly as asked
- ✓ Payments, automations & integrations

SELECTED LIVE STORES

- NOBA Lifestyle** — premium menswear, fully custom theme [nobalifestyle.com](#)
- Montrell Club** — fashion & lifestyle, editorial build [montrellclub.com](#)
- PureLabs** — supplements brand (NL), multi-language [purelabs.nl](#)
- Easy Scoop** — product-led store, custom brand identity [easy-scoop.com](#)
- International coffee brand** — custom storefront & functionality [on request](#)
- City Centre Dentistry** — conversion landing page + lead funnel [1citycentredentistry.com](#)

EXPERIENCE

Freelance Shopify Developer & Theme Engineer 2022 – Present
Self-employed · e-commerce brands in Egypt & internationally

- Built and customised custom Shopify themes for menswear, supplements, lifestyle and food & beverage brands — including clients outside Egypt.
- Replicated complex designs pixel-exact in Liquid/JS/CSS where page-builders and stock themes fell short.
- Implemented custom payment methods, automations, CRM/lead funnels and third-party integrations beyond standard theme scope.
- Added conversion features — upsells, frequently-bought-together, cart drawer, swatches — and optimised speed & mobile UX.
- Commanded premium rates by delivering the custom engineering most "Shopify experts" can't.

WHAT I DELIVER

- Custom Liquid themes & sections
- Payment-method & checkout customisation
- Conversion-rate optimisation
- Arabic (RTL) & multi-language stores
- Pixel-exact design implementation
- Store automations & integrations
- Performance, SEO & Core Web Vitals
- Migrations, redesigns & ongoing support
